Re: Sugar Pine Village
Will Serve Letter

Dear Ms. Roverud,

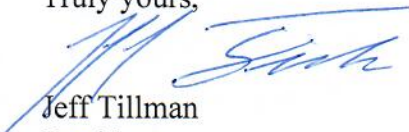

South Tahoe Refuse Co. has reviewed the planning documents for the Sugar Pine Village project and worked with the proponents to assess the solid waste generation and needs.

South Tahoe Refuse Co. has the capacity to provide solid waste services to this project. The current site plans provide adequate access to the dumpster locations.

We have also discussed space for recycling containers, which can be substituted for residential solid waste as determined appropriate by the property operators. We commend the project proponents for addressing future solid waste needs in the development of the project. We service many properties in the South Lake Tahoe service area that, once in operation, regret that adequate planning was not provided for recycling operations and options.

Please feel free to contact us directly at 530 542-8300 if further information is needed.

Truly yours,

Jeff Tillman
President
